

Vortex Water Revitalizer Portable Funnel User Guide

Instructions apply to:

1/2 inch Portable Funnel Vortex Standard & 1/2 inch Portable Funnel River of Life Vortex Water Revitalizer.

How To Use:

Funnel Vortex Revitalizer can be used just like any other funnel. Place the narrow end over a glass or a bottle and pour the liquid you want to revitalize into the funnel. You can use both funnel models to filter water, as well as any other beverage, including wine.

Please Note:

Portable Funnel Vortex Revitalizers are made of 100% copper. The material has a specific scent, which you will be able to smell at first. However, it won't hurt the quality of your water and will wear off after the first few uses.

If you decide to use Portable Funnel Vortex Revitalizer to filter any other beverage than water within the first 60 days of purchase, the warranty offered by World Living Water Systems Ltd. will be void.

It is essential to clean Funnel Vortex Revitalizer thoroughly after using it to revitalize any other beverage than water to avoid lingering scent and taste.

Cleaning Instructions:

Funnel Vortex Revitalizers can be cleaned using natural products at home:

Method #1

Mix 1/4 cup salt, 1/4 cup flour, and enough vinegar to make a thick paste. Use a soft cloth to rub the paste on the surface of the funnel. Rinse with warm water and dry thoroughly.

Method #2

Mix lemon juice, lime juice, or vinegar with baking soda into a foamy mixture; Rub the substance on the surface of the funnel using a soft cloth; Rinse with warm water and dry thoroughly.
