

Vortex Water Revitalizer Shower Installation

1. Remove your existing showerhead and screw the Shower of Life Vortex Water Revitalizer in it's place.
2. If needed, use some Teflon Tape (plumbers tape) and tighten using pliers (use a cloth or piece of thick paper to protect the fittings).
3. Attach your existing showerhead to the other end of the Shower of Life Vortex Water Revitalizer.

If you have a hose shower, install on either end of the hose.

Please Note: If gathering drinking water from the Shower of Life Vortex Water Revitalizer, be sure to remove your showerhead first.
